

BUILDING TECHNOLOGY SMARTER

A Strong Foundation

Custom Software Solutions – Independent and Co-Development

Get It Right The First Time!

INTERTECH

Building Technology **Smarter**

At Our Core

Intertech's Full-Time Staff Considers Each Phase Of Your Project **Equally Important.**

As a trusted resource, Intertech brings the expertise needed to implement every facet of your project, from planning to deployment. It's the difference between success and having to extend the deadline.

At Our Core

Our Full-Stack Consultants Bring Proven Experience To Your Project **From Beginning To End!**

Full-Stack Development

Intertech consultants bring more to the project than just development. Being a full-stack consultant means an ability to lead technically while balancing the soft skills required to mentor, engage, and leave your team healthier.

Strategic Consulting

Intertech ensures a proven business analyst (BA) and project manager (PM) are assigned to make sure your end product meets the requirements dictated by the stakeholders.

Compliance & Accessibility

Compliance can include good practices, ADA accessibility, regulations specific to your industry, and others that make all the difference to your customers ...and lawyers.

User Interface / Experience

Combining design and psychology, our UI/UX designers outline the application's interface using proven and creative techniques that make your vision come alive and satisfy your client base, so they press "submit."

Quality Assurance

Intertech quality assurance (QA) consultants bring a full suite of tests, from automation testing to unit testing, ad-hoc testing, acceptance testing, and so many others.

Agile / Scrum Leadership

Through collaboration between cross-functional teams, Intertech consultants, and ScrumMasters, bring your vision to life quicker through an iterative development process.

How We Do It

First, We Structure A Team Around Your Requirements!

We know what it takes to be successful! Through experience, Intertech has outlined a core team of crucial roles to ensure that together we meet your business objectives the first time.

How We Do It

Already Have A Role Covered? **No Problem,** We Build Each Team **To Your Exact** **Specifications... And Scale As Needed!**

Intertech full-stack consultants can take on multiple roles or work with your in-house resources already on the job. Either way, we structure each project team to fit your requirements.

How We Do It

Finally, We Tie It Together With An Agile Development Process, So You're Ready For Anything ...Even Changing Requirements Midstream!

Business moves fast! Your ability to adjust to the changes must coincide. With an Agile, iterative process, you are more nimble, have more accountability, and waste less time. This continuous feedback loop ensures successful software throughout the project and within each phase, **including** problem analysis, solution design, coding, testing, and product release.

— You're Not Alone

Our Projects And Customers Are Headquartered Across The United States!

Whether teaming up with you on-site or from a distance, our team members feel close to your home base. And whether you are near our headquarters or far away, our employees are at work in their element. When you hire Intertech, you hire a proven team that understands their roles, can lead from anywhere, and know how to avoid delays by heading off challenges through experience.

Intertech puts its stock in great people with proven technical expertise. It doesn't matter if they are working remotely or sitting next to you in the office; Intertech's quality is contagious and makes your company that much better and eliminates the worry.

Intertech Specializes In **The Areas That Matter!**

Framework & Back-End Development

Constructing the logic that your applications rely on to collect and disseminate your essential data more efficiently is one of our specialties. Intertech will set you up for the data revolution. From .NET/C# to Java to Drools/KIE, C/C++, Scala, Spring Boot, Express, Python, JavaScript, and all the superset scripts and tools that create the entire working package.

Front-End Development

How you interact with the screen is the side of development that represents you to the world. No matter the technologies required to make your system user friendly, data responsive, and employees more efficient, we have you covered. JavaScript, Visual Studio, Angular, jQuery, Bootstrap, Foundation, EmberJS, TypeScript, Vue.js, React, and more, with Intertech you can create the applications your business needs.

Development Operations (DevOps)

We unite the people, processes, and products in a continuous loop of delivery, testing, and deployment. Together, we get your product up and running in a format that is fast, organized, and adjusts to fit the changing world.

Project Delivery Leadership

Intertech consultants bring more to the project than just development. Being an Intertech consultant is having the ability to lead a project, no matter the methodology, while balancing the soft skills to mentor, engage, and leave you stronger.

Release Management

Intertech consultants manage the entire process from planning and scheduling to every stage within the build process, including design, development, testing, and deployment. Stay on track with us.

Quality Assurance (QA)

In addition to rigorous automated developer testing, our QA consultants focus on ensuring application quality through a range of rigorous best practices tests that deliver end products that are ready to deploy and generate results.

Accessibility / Compliance

Depending on your needs, we adhere to requirements placed on your industry by law and incorporate features that make your product a better fit with your customer base.

About Intertech

We Also Come With Over 4000 Recommendations!

Whether pivoting to new technology or modernizing a legacy system, our consulting clients were asked these three questions, “YES” was the overwhelming response.

Would you use Intertech again?

It's All About The People

How Do We Do It? ...We're Selective.

You're selective, shouldn't we be too? From day one, Intertech has offered a clear path for exceptional professionals who give and expect the best... and it's paid off.

- ❖ Named one of the "Top 30 firms" in Tech by Fortune Magazine
- ❖ Named one of the "Top 10 Consulting Firms in America" by Consulting Magazine
- ❖ Won the Minneapolis St. Paul Business Journal's list of "Best Places to Work" fourteen times.

About Intertech

Team Member's With Technical Skills **AND** Soft-Skills Are A Requirement At Intertech!

According to a leading project management organization report, one of the primary reasons software projects fail is a lack of people with both technical and managerial skills on the development team¹. Since our inception, Intertech has focused on consultants that combine these traits, so we impact others around us through engagement, mentoring, and guidance, making your job easier.

Thank You

Intertech Focuses On You And Your Satisfaction!

Thank you for taking the time to learn more about Intertech. As the largest combined software developer training company and research-supported consulting firm in Minnesota, I'm proud of the team we've built and the clients we've served. When we began, I wanted to create a special place for the best people and work with exceptional clients – **clients who share our values, see us as strategic, and whose businesses we can impact using practical technology.** I believe we have achieved this goal.

If we can answer any questions about Intertech or help you with an upcoming project, please let us know!
